1971.10mm	1092mm	1947mm	159kg	2300 ltr

The Alternative to Metal. Built to handle large volumes of waste in commercial and industrial environments, OTTO commercial containers are built tough with injection molded, corrugated walls to provide extra strength and handle large loads (up to 1,000 lbs.). They are the proven alternative to cumbersome metal containers for a variety of reasons:

- ◆ Extremely easy to maneuver.
- ◆ Won't rust, dent, crack, chip or peel.
- ◆ Weigh 1/3 less than metal containers.
- ◆ Won't corrode in salt air environments.
- ◆ Roll quietly allowing for early or late work routes.
- ◆ Entire container can be steam cleaned or rinsed with a hose.
- ◆ Ideal for wet refuse.
- ◆ Perfect for indoor applications.

2-Cubic Yard

Ideal For Recycling. OTTO commercial containers are ideal for general collection of heavy recyclable materials or office recyclables such as glass, cardboard, paper, etc. These versatile containers can be used in multi-family dwellings and commercial/industrial environments.

Sized For Commercial Use. OTTO commercial containers are available in 2 and 3 cubic yard capacities to accommodate a wide variety of commercial and industrial applications. Optional 6" casters allow the container to be maneuvered easily inside or outside even when full!
