

OTTO's exacting quality standards for wheel design translate to these features:

- Freedom from flat spotting
- Superior shock absorption
- Easy to install, remove and replace snap-on hub
- No rust or corrosion
- Meets all ANSI standards
- No tire roll off
- Unsurpassed durability
- Rolls quietly
- Easy maneuverability
- Superior high-temperature performance
- Locking hub minimizes theft
- Light weight
- Made of 100% recyclable plastic

Locking hub snaps on in seconds:

Using your hand, apply pressure to the center of the wheel hub and press the wheel firmly onto the axle. Listen for snap to assure wheel is locked into place. Once locked, wheel cannot be removed without the specialized removal tool — available from OTTO.

(Cross section diagram on left shows locking mechanism inside hub.)
