

Holtz Industries, Inc

Donovan Covering Systems

HY-TOWER SL DON-2962

Standard Features:

- Raises 15' above truck frame
- 3 hour installation
- Self-contained hydraulics
- Push button valve control
- 100" wide tarp
- 450 lbs complete

Covers the full range of roll-off containers

Raises 15 feet above the truck frame, allowing for easy coverage of 15-40 cubic yard containers. The Hy-Tower SL tucks compactly behind the cab during transportation.

Easily covers heaping container loads

Allows you to cover peaked loads easily from the safety of the ground. The light, easy to handle, extra-wide (100") tarp allows for quick and effective covering of your containers.

Extremely low maintenance

The Hy-Tower SL was designed to minimize regular maintenance and accidental damage. With no pivot arms to bend or break-the chief cause of tarper maintenance is eliminated.
